SC41 GC 6.4 CONCEALED OR UNKNOWN CONDITIONS

SC41.1	6.4.1	<p><u>Delete</u> paragraph 6.4.1 and <u>replace</u> it with the following:</p> <p>6.4.1 Having regard to the amount of time between the <i>Owner</i> issuing the <i>Procurement Documents</i> and the closing date of the procurement, as well as any requirement for proponents to attend a tour of the <i>Place of the Work</i> during the procurement process, the <i>Contractor</i> confirms that, prior to submitting its <i>Procurement Response</i>, it carefully investigated the current conditions at the <i>Place of the Work</i>, and applied to that investigation the degree of care and skill described in GC 3.15.1. If the <i>Contractor</i> has failed, neglected, or refused to conduct such careful investigation, it is deemed to assume all risk of conditions or circumstances now existing or arising in the course of the <i>Work</i> which could make the <i>Work</i> more expensive or more difficult to perform than was contemplated at the time the Contract was executed. No claim by the <i>Contractor</i> will be entertained in connection with conditions which could reasonably have been ascertained by such investigation or other due diligence undertaken prior to the execution of the <i>Contract</i>.</p>

SC42.1	6.5.1	<p><u>Delete</u> paragraph 6.5.1 and <u>replace</u> it with the following:</p> <p>6.5.1 If the <i>Contractor</i> is delayed in the performance of the <i>Work</i> by the <i>Owner</i>, the <i>Consultant</i>, or anyone employed or engaged by them directly or indirectly, contrary to the provisions of the <i>Contract Documents</i>, and if the <i>Contractor</i> can demonstrate that the critical path shall be impacted by the delay given the logic presented in the most recent <i>Construction Schedule</i>, then the <i>Contract Time</i> shall be extended for such reasonable time as the <i>Consultant</i> may recommend in consultation with the <i>Contractor</i>. Subject to the <i>Contractor's</i> obligation to mitigate costs, the <i>Contractor</i> shall be reimbursed by the <i>Owner</i> for reasonable <i>Direct Costs</i> directly flowing from the extension of the <i>Contract Time</i> , but excluding any consequential, indirect or special damages, and excluding any claims for loss of profit or opportunity.”</p>
SC42.2	6.5.2	<p><u>Delete</u> paragraph 6.5.2 and <u>replace</u> it with the following:</p> <p>6.5.2 If the <i>Contractor</i> is delayed in the performance of the <i>Work</i> by a stop work order issued by a court or other public authority and providing that such order was issued on account of a direct breach, violation, contravention, or a failure to abide by any laws, ordinances, rules, regulations, or codes by the <i>Owner</i>, the <i>Owner's</i> other contractor(s), or the <i>Consultant</i>, and relating to the <i>Work</i> or the <i>Place of the Work</i>, and if the <i>Contractor</i> can demonstrate that the critical path shall be impacted by the delay given the logic presented in the most recent <i>Construction Schedule</i>, then the <i>Contract Time</i> shall be extended for such reasonable time as the <i>Consultant</i> may recommend in consultation with the <i>Contractor</i>. Subject to the <i>Contractor's</i></p>

		obligation to mitigate costs, the <i>Contractor</i> shall be reimbursed by the <i>Owner</i> for reasonable <i>Direct Costs</i> directly flowing from extension of the <i>Contract Time</i> , but excluding any consequential, indirect or special damages, and excluding any claims for loss of profit or opportunity.
SC42.3	6.5.3	<p><u>Delete</u> paragraph 6.5.3 and <u>replace</u> it with the following:</p> <p>6.5.3 If the performance of the <i>Work</i> or the performance of any other obligation(s) of a party to this <i>Contract</i> is delayed by <i>Force Majeure</i>, then the <i>Contract Time</i> shall be extended for such reasonable time as the <i>Consultant</i> in consultation with the <i>Owner</i> and the <i>Contractor</i> shall agree. The extension of time shall not be less than the time lost as a result of the <i>Force Majeure</i> event causing the delay, unless the <i>Contractor</i> agrees to a shorter extension. Neither party shall be entitled to payment for its costs or reimbursement of its expenses incurred by such delays. Upon reaching agreement on the extension of the <i>Contract Time</i> attributable to the <i>Force Majeure</i> event, the <i>Owner</i> and the <i>Contractor</i> shall execute a <i>Change Order</i> issued by the <i>Consultant</i> indicating the length of the extension to the <i>Contract Time</i> and confirming that there are no costs payable by either party to the other for the extension of <i>Contract Time</i>.</p> <p>.1 Notwithstanding the foregoing, the <i>Owner</i>, through the <i>Consultant</i>, may issue a <i>Change Directive</i> requiring the <i>Contractor</i> to undertake those specific actions identified in the <i>Change Directive</i> as the <i>Contractor</i> can reasonably and safely initiate to remove or relieve either the <i>Force Majeure</i> or its direct or indirect effects on the <i>Project</i>, in which case the <i>Contract Price</i> will be adjusted in accordance with GC 6.3.7. If the <i>Contractor</i> fails within the time period specified in the <i>Change Directive</i> to take such action, then the <i>Owner</i> may, at its sole and absolute discretion and after it has given written notice to the <i>Contractor</i>, take some or all of such actions to partially or wholly remove or relieve such <i>Force Majeure</i> or its direct or indirect effects, and thereafter require the <i>Contractor</i> to resume the performance of the <i>Work</i>.</p>
SC42.4	6.5.4	<p><u>Delete</u> paragraph 6.5.4 and <u>replace</u> it with the following:</p> <p>6.5.4 No extension of the <i>Contract Time</i> shall be made for delay (under GC 6.5.1, 6.5.2, or 6.5.3) and no additional compensation will be paid (under GC 6.5.1 or 6.5.2) unless <i>Notice in Writing</i> of the cause of the delay is given by the <i>Contractor</i> to the <i>Owner</i> and to the <i>Consultant</i> not later than 5 <i>Working Days</i> after commencement of the delay. In the case of a continuing cause of delay only one <i>Notice in Writing</i> shall be necessary. For the <i>Notice in Writing</i> to be valid under this GC 6.5.4 it must include specific details about:</p> <p>.1 the cause of the delay;</p> <p>.2 the impact the delay will have on the <i>Contract Time</i>, as demonstrated through an analysis of the critical path based on the logic presented in the most recent</p>

		<p><i>Construction Schedule</i>, and details of the extension of time being requested;</p> <p>.3 the likely effect the delay will have on payment, if any; and</p> <p>.4 mitigation efforts, if any, undertaken by the <i>Contractor</i> or, where no mitigation efforts have been undertaken by the <i>Contractor</i>, the reasons why mitigation is either not possible or has not been undertaken by the <i>Contractor</i>.</p> <p>Compliance with the notice requirements of this GC 6.5.4 does not entitle the <i>Contractor</i> to an extension of the <i>Contract Time</i> and/or adjustment to the <i>Contract Price</i>, but merely preserves the <i>Contractor's</i> right to seek an extension of the <i>Contract Time</i> and/or an adjustment to the <i>Contract Price</i>.</p>

EXHIBIT “2”

Project-specific requirements for the Baseline Schedule and the Construction Schedule

1. The *Baseline Schedule* and every subsequent update to the *Construction Schedule*, shall include and conform to the following basic requirements:
 - (a) be developed and maintained using the most current version of MS Project or, when requested in writing by the *Owner*, the latest version of Oracle Primavera P6;
 - (b) clearly demonstrate that the *Work* will be performed in conformity with the *Contract Time*, with express references to (at a minimum):
 - (i) the date of the *Contractor's* mobilization at the *Place of the Work*;
 - (ii) a *Products* delivery schedule showing those *Products* whose delivery will affect the critical path to achieve *Ready-for-Takeover* within the *Contract Time* or are required under the *Specifications* to be included in the *Products* delivery schedule;
 - (iii) each *Milestone*, including the dates prescribed in Article A-1.3 for *Substantial Performance of the Work, Occupancy, and Ready-for-Takeover*;
 - (iv) any interim milestones requested by the *Owner* in writing following an adjustment to the *Contract Time* that has been approved in accordance with the *Contract*;
 - (c) logically link all activities with predecessor and successor activities, so that the critical path and interconnections are accurately identified and progress and re-forecasting can be correctly made as changes during the performance of the *Work*;
 - (d) a tracking variance showing the current *Construction Schedule* relative to the *Baseline Schedule*;
 - (e) relationships types shall be shown as Finish to Start relationships (to maintain forward reaction), and the application of constraints, lags, and leads is not acceptable;
 - (f) activities of a length greater than 20 *Working Days* shall be broken into sub-tasks (each not to exceed 20 *Working Days*) to allow for the progress of the *Work* to be accurately tracked;
 - (g) resource loading shall be expressed in work hours;
 - (h) all non-*Working Days* shall be identified and accounted for in the *Contractor's* scheduling analysis, including statutory holidays, any trade, union, or industry-specific non-*Working Days*, weather allowances, labour shifts and collective agreement stipulations, technical requirements and other considerations influencing the duration and logic of activities;
 - (i) all data point shall be labeled with a currency date;
 - (j) each submission of the *Construction Schedule* by the *Contractor* to the *Owner*, including the submission of the baseline schedule, shall be in hard copy, PDF, and native format (e.g., .mpp format for Microsoft Project); and
 - (k) attach, either as part of the *Construction Schedule* or as a separate document, a *Construction Schedule* dependent cash flow forecast showing the *Contractor's* anticipated monthly billings as a function of the *Construction Schedule* logic.

2. No activity referenced in the *Baseline Schedule* or any revised *Construction Schedule* will be deleted for any reason. In the event that an activity or group of activities are no longer required (in that the Work that the activities represent have been removed from the Project) then the affected activities will be moved to a Work Breakdown Structure element called “deleted” (positioned at the end of the Work Breakdown Structure). Logic tying these deleted activities to the *Construction Schedule* shall be removed. The *Construction Schedule* logic shall be adjusted to ensure that the removal of these deleted activities does not leave any open ends and that the integrity of the schedule logic is not compromised.
3. Each update of the *Construction Schedule* shall be accompanied by a progress schedule report that sets out:
 - (a) a summary of significant progress since the previous *Construction Schedule* was issued, including elements started or completed during the period;
 - (b) a brief explanation of any alterations in the *Construction Schedule* since the previous *Construction Schedule* (or *Baseline Schedule*, as the case may be) was issued, including any alterations (whether increments or decrements) made to the original duration (duration in the *Baseline Schedule*) of activities listed in the *Construction Schedule* and any alterations to the sequencing of work;
 - (c) confirmation that details of all third-party items, including activities dependent on and/or subject to third-party actions, included in the *Construction Schedule* are accurately represented as documented by the third-party in the schedule to the best of *Contractor's* knowledge; and
 - (d) a statement by *Contractor* that there either “has”, or “has not” been, any alteration to the critical path since the previous *Construction Schedule* was issued.
4. Each update shall also include a “Critical Path Report” encompassing all Work from the date stated in Article A-1.3 for commencement of the Work to *Ready-for-Takeover*. The Critical Path Report shall include:
 - (a) a Gantt Chart schedule that shows the critical path of the *Project* as well as near-critical path activities. Near-critical path activities shall be activities having less than 20 days total float;
 - (b) Gantt Chart schedules that show the individual critical paths through each of the *Milestones*;
 - (c) critical path analysis including the following:
 - (i) actual progress against baseline target dates for each critical path or near-critical path activity;
 - (ii) any critical path or near-critical path activities and/or milestones that are more than 20 *Working Days* behind schedule, relative to the then current *Construction Schedule*;
 - (iii) a narrative that describes the changes in the critical path or near-critical path activities since the approval of the current version of the *Construction Schedule*;
 - (iv) assessment and analysis of the risk of delay to the *Construction Schedule* and the mitigation of these risks in a tabular form; and
 - (v) provisions for addressing the behind-schedule critical path or near-critical path activities such that each *Milestone* will occur on the respective target dates currently listed in the approved *Construction Schedule*.
