See the following responses in bold font regarding questions from flooring sub-trades:

Q.1: Just wanted to confirm –

LINO-1 and 2 are to be Armstrong, Homogenous Sheet Flooring, Medintone w/ Diamond 10 Technology, correct? Are there any differences between the 2 flooring types? Details seem to be missing from specifications.

Yes, flooring is the same material, the colour will be different.

Q.2: LINO-3 is to be Polyflor, 7" x 48", Luxury Vinyl Tile - Expona Simplay PUR, Grey, Fine Line 2510, correct? It seems to be missing from the Room Schedule and the Room Finish Legend, is this the flooring meant to be in the CAD Lab (Room B110)? If so, what base is meant to accompany it?

Yes, the Polyflor, 7" x 48", Luxury Vinyl Tile – Expona Simplay PUR, Grey, Fine Line 2510 is to be used for Room B110, the base is to match existing.

Q.3: What is the placement/extent of the following bases mentioned in the specifications? –

Armstrong, 4", 1/8" Thick, Color-Integrated Wall Base, Matte Finish, Type TP - Rubber, Thermoplastic, Group 1- Solid, Style B – Cove Johnsonite, 4", 1/8" Thick, Rubber Wall Base, Cove Profile, Colour TBD (which I assume this is Base B-2/RB-1?)

No cove base is to be provided, use Johnsonite, 4", 1/8" Thick, Rubber Wall Base, Cove Profile, Colour TBD for all bases. This is B-2 in the Room Finish Schedule.

Q.4: What is the specification and accompanying base for the “Vinyl Sheet Flooring to Match Existing” (for Room B110) in the Proposed Floor Finish Plan Floor Pattern Plan Legend?

Provide LINO-3 in Room B110, which is the Polyflor, 7” x 48”, Luxury Vinyl Tile - Expona Simplay PUR, Grey, Fine Line 2510, to match existing.
