

ADDENDUM NO.01: SECTION 00 91 01

1.0 GENERAL INSTRUCTIONS

- 1.1 The information contained herein will constitute an addendum to the Specifications and Drawings for:

UNIVERSITY OF TORONTO

DENTISTRY CLINIC 2

PROJECT NUMBER P065-21-050

- 1.2 Upon receipt of bids, it will be assumed that all matters pertaining to this addendum are included in the base bid amount.
- 1.3 The following revisions will amend the specifications and drawings and all items added or deleted thereon will be included for in the bid submission.

2.0 DIVISION 00, DIVISION 01 DOCUMENTS

- 2.1 Refer to Optional Site Visit

1. The University is adding an additional optional site visit, that will be held on Friday June 19th at **10AM**. Meet in the patient lobby at 101 Elm St. Please keep to a small number of attendees.

Please be reminded that the last day for submitting RFI questions is Tuesday, June 23rd and this date will not be changed.

- 2.2 Refer to Site Visit Attendance List

2. The University has posted the Site Visit Attendance list from the Mandatory Site Visit.

3.0 BIDDERS' QUESTIONS

- 3.1 Refer to the following Bidders' questions at time of Bidders' site tour, and Consultant's Answers:

Q1. "Please confirm the locations where radiation protection is required as per Section 13 49 00."

A1. The approximate extent of radiation protection is represented by the dashed line in the architectural set on sheet A4401: Drawing 3, 6, 10, 13, and sheet A4402: Drawing 1, 12. Final extents are to be determined on site.

Q2. "Please confirm whether any earthwork is required under Section 31 00 00."

A2. Earthwork is required as per structural sheet S2000: Framing Plan - Parking Garage

Q3. "Please confirm that if there is union requirement for all division or only SECTION 14 20 00 – HYDRAULIC ELEVATORS"

The General Labour conditions speak to the union requirements in Schedule 1 *SUPPLEMENTARY CONDITIONS* SGC 36.2.

Q4. "Do Roller shades need to be union as well?"

A3. The General Labour conditions speak to the union requirements in Schedule 1
SUPPLEMENTARY CONDITIONS SGC 36.2. Bidders are to ensure that they comply with the Union Agreements.

Q5. "Could you please provide the height for the roof crossover sizes over the duct/gas lines?"

A5. The proposed height for the main duct crossover is +/- 2200 mm above the roof and +/-800mm for the pipe crossover. Final heights/elevations to be determined on site by the contractor.

Q6. "Can a revised roofing specification be provided? The roof section to be altered has a Siplast light weight insulated concrete roof system in place and a 25 year NDL warranty that would be voided if the materials included in the specification were used for alterations."

A6. Updated roof details and specifications to be provided as part of an upcoming addendum.

Q7. "Can roof details be revised to reflect the existing Siplast LWIC roof system?"

A7. Updated roof details and specifications to be provided as part of an upcoming addendum.

Q8. "Is all roof work to be cold process as per typical U of T requirements?"

A8. Roof work to be cold process per UofT Roofing Design Standards and installed per manufacturer's instructions to maintain the roof warranty.

Q9. "Is there a spec available for the DA (dental air) and OV (oral vacuum)?"

A9. Specifications to be provided as part of an upcoming addendum.

END OF ADDENDUM NO. 01
